Country of Origin
- China

Product highlights

Patented micromesh filter
The Patented micromesh filter made of stainless steel squeezes every drop to give you more juice

Up to 200% faster juicing
This Food Processor is the first to offer you a professional juicing accessory. Thanks to its extra large feeding tube and patented large metal mesh filter, it can juice up to 200% faster versus other food processor juicers. And thanks to its ergonomic design, it is quicker to clean and store

XL feeding tube
The XL feeding tube takes whole fruits and vegetables so you don't need to pre-cut them anymore

XL bowl
The XL bowl allows for maximum volumes to be processed in 1 go: capacity for 2L soup, 1.7kg dough, 7 egg whites

34 functions
10 tools for 34 different functions. They are: a SS blade for chopping, crumbling, cutting, mashing, mincing; an adjustable slicing disk for 1-7 mm slices; a shredding disk for shredding or grating; a balloon beater for whipping, whisking, emulsifying, stirring, mixing, creaming, beating; a granulating disk; a kneading tool for heavy mixing, kneading, folding in; a julienne/French fries disk; a blender for blending, crushing, foaming, grinding, (heavy)pureeing, homogenizing, liquidizing, milling, shaking, stirring, measuring; a citrus press; a centrifugal juicer for apples, carrots, etc

1000W
With the powerful 1000W motor you can adjust speed precisely to get desired results.

Adjustable slicing blade
With the adjustable slicing blade, you can make slices as thin as 1 mm and up to 7 mm thick

Stylish design
Stylish and compact design looks great in every kitchen and takes up little space on your kitchen counter

Compact 3-in-1 setup
Compact 3-in-1 setup fits juice extractor, blender or bowl so uses up a minimum of space on your countertop

Sturdy base
The sturdy base comes with suction feet to ensure it does not move, even when you use it for heavy applications like kneading dough
